Cumulative Contents

Information for Contributors *vii*

Minireview

Transvection and chromosomal *trans*-interaction effects
V. Pirrotta (Switzerland) M1

Meeting reports

First International Conference on Signal Transduction, Croatia
N. Pullen and G. Thomas (Switzerland) R1

"The End of the Beginning": Molecular and Cellular Biology of Gene Therapy
M.K. Brenner (USA) R5

Review of AACR Meeting: New Research Approaches in the Prevention and Cure of Prostate Cancer, 2–6 December 1998, Indian Wells, CA
D.K. Ornstein, W.L. Dahut, L.A. Liotta and M.R. Emmert-Buck (USA) R11

Transcriptional deregulation in hereditary disorders and cancer: the 12th annual CABM symposium, October 21–22, 1998, Piscataway, NJ
A.B. Rabson (USA) R21

Molecular determinants of sensitivity to antitumor agents
M.B. Kastan (USA) R37

Information for Contributors *vii*

Minireviews

The role of *lats* in cell cycle regulation and tumorigenesis
G.S. Turenchalk, M.A.R. St. John, W. Tao and T. Xu (USA) M9

CDK-independent activities of D type cyclins
R. Bernards (The Netherlands) M17

TCF transcription factors: molecular switches in carcinogenesis
J. Roose and H. Clevers (The Netherlands) M23

Chromophore-assisted laser inactivation (CALI) to elucidate cellular mechanisms of cancer
D.G. Jay and T. Sakurai (USA) M39

Meeting reports

1999 Keystone Symposium on B Lymphocyte Biology and Disease: B Cell Malignancy II Session
R. Levy (USA) R43

Many faces of ATM: Eighth International Workshop on Ataxia-Telangiectasia
T.D. Halazonetis and Y. Shiloh (Israel, USA) R45

11th Lorne Cancer Conference, Lorne, Victoria, Australia, 11–14th February 1999
G.J. Lindeman and J.E. Visvader (Australia) R57
